

# 120 MESH

**Premium Waterjet Abrasive Product by Australian Garnet**

## Precision Waterjet Abrasive.

Australian Garnet 120 mesh premium abrasive is a waterjet cutting product offering a high precision cut for thinner or more brittle material, delivering good cutting speeds and a superior edge finish.

The superior mineral properties of alluvial garnet and Australian Garnet's state of the art wet and dry processing facilities, delivers a premium abrasive with superior quality and performance.

### KEY PRODUCT FEATURES

- Ideal for thinner, softer, and more brittle materials
- Good cutting speeds with a superior edge
- Consistent particle sizing that reduces downtime and maximises output.

### PRODUCT APPLICATION

- Marble
- Glass
- Ceramics
- Brass
- Plastics

### PARTS APPLICATION

- Focusing Tube: 0.02" (0.51mm) – 0.03" (0.76mm)
- Orifice: 0.007" (0.18mm) – 0.01" (0.25mm)

### LOCAL DISTRIBUTOR:

## INDUSTRY APPLICATION

- Manufacturing
- Aerospace
- Metal works
- Glass cutting
- Stone cutting

## THE AUSTRALIAN GARNET DIFFERENCE

Australian Garnet has developed a state-of-the-art mining, processing, and packaging facility at our Lucky Bay Garnet Mine in Western Australia that will deliver high-quality garnet abrasives.

### WORLD CLASS PROCESSING

High purity garnet abrasives with low chlorides and soluble salts that are engineered to perform.

### QUALITY ASSURED

Tested at our on-site laboratory to ensure products exceed international quality standards.

### SUPERIOR PERFORMANCE

Optimising the performance of your equipment for faster cutting, a superior edge finish and lower consumption rates.
