

30/60 MESH

Premium Blasting Abrasive Product by Australian Garnet

Highly versatile abrasive for medium to thick coatings and general maintenance.

Australian Garnet 30/60 Mesh premium abrasive is a versatile product for removal of medium to heavy grade coatings or rust. The superior mineral properties of Australian Garnet enable high productivity rates and an exceptional surface finish.

KEY PRODUCT FEATURES

- › Engineered particle size distribution for optimal cutting and cleaning performance
- › Ideal for removal of medium to thick coatings and heavy rust
- › Creates uniform profile to suit majority of coating applications
- › Increased recyclability, reducing cost and waste

PRODUCT APPLICATION

- › High performing general maintenance abrasive
- › Removal of medium to heavy coatings
- › Removal of medium to heavy rust
- › Provides uniform surface profile for optimum coating adhesion

PERFORMANCE

- › Average profile range: 60-90 μm
- › Blasting rates: up to 30m²/hr
- › Consumption rate: from 15kg/m²

LOCAL DISTRIBUTOR:

INDUSTRY APPLICATION

- › Oil and Gas
- › Steel fabrication
- › Pipelines
- › Marine vessel maintenance
- › Construction
- › Infrastructure

THE AUSTRALIAN GARNET DIFFERENCE

Australian Garnet has developed a state-of-the-art mining, processing, and packaging facility at our Lucky Bay Garnet Mine in Western Australia that will deliver high-quality garnet abrasives.

WORLD CLASS PROCESSING

High purity garnet abrasives with low chlorides and soluble salts that are engineered to perform.

QUALITY ASSURED

Tested at our on-site laboratory to ensure products exceed international quality standards.

SUPERIOR PERFORMANCE

Faster cleaning rates and low consumption resulting in higher productivity.
